# Our Story

Born from over 25 years of craftsmanship, Enviro Craft began as a furniture company specializing in synthetic rattan—a material that combines elegance with durability. Over the years, we mastered the art of creating long-lasting indoor and outdoor furniture that could withstand the elements.

As we navigated the ever-evolving landscape of design, we recognized an opportunity for growth. With our deep-rooted expertise in synthetic rattan, we saw its potential extend far beyond furniture. The intricate weaves and natural aesthetics of synthetic rattan inspired us to explore new horizons, leading us to innovate in areas like facades, ceilings, interior decorations, and even art installations.

Our commitment to sustainability is at the core of everything we do. Each piece we create is a testament to our dedication to the planet. Our synthetic rattan and thatch roofing products not only reduce waste but also eliminate concerns about rot and bug infestation. We strive to provide solutions that not only look good but also contribute positively to the environment.

Our products are built to endure. With a 10-year color guarantee and exceptional durability against sunlight and weather conditions, we ensure that our designs maintain their vibrancy and charm for years to come. Every installation tells a story of resilience and beauty, inviting you to create lasting memories in your spaces.

At Enviro Craft, we are more than a furniture company; we are artisans, innovators, and storytellers. Our legacy of excellence continues to inspire us as we craft each new design. We invite you to join us on this journey, where elegance meets sustainability, and together, let's transform spaces into reflections of our shared values.

With Enviro Craft, the future is bright, and the possibilities are endless.

DESIGN INTREGITY.

QUALITY CRAFTMANSHIP.

ATTENTION TO DETAIL.

# Custom Pattern

• Panels available in 1,2 m x 2,4 m sheets.  
• longer lengths available by special order.

• Woven Enviro Ready to Use Sheet.

• Available to be installed with hard surfaces such as oriented strand board.

**Installation:**

- May be cut, trimmed or drilled using ordinary power or hand tools.
- Panels can be fastened pneumatically using staples gun (nail).
- Ring nails or staples in wood or use suitable screws.
- Dust mask is recommended, fine dust is created when cutting.

# Ready To Use

Enviro Ready to Use can be easily installed with basic carpentry tools, available in conveniently sized 1,2 m x 2,4 m woven panels.

The key to everlasting youth is contained in Enviro Ready to Use. This age defying, high-performance indoor/outdoor paneling is made from non-toxic, UV-tested fiber

Completely resistant to water and heat of the sun. Enviro Ready to Use is equally at home in the kitchen, bathroom, or garden as it is by the pool. It can be hosed down without fear or rotting.
